1 AUTHOR'S GUIDE FOR ELECTRONIC SUBMITTAL OF ACM

Size: 82.06KB MIME type: text/html

This tells LaTeX to add the Alternate ACM style file's structural commands to the suite of commands already available, and to begin working in the ACM document environment. your article as having this general structure: the Title and Author Information (including information along with any footnotes on title, subtitle and authors and not forgetting the authors which appear at the end of the document); the Body of the Article (...)

2 AUTHOR'S GUIDE FOR ELECTRONIC SUBMITTAL OF ACM

Size: 111.62KB MIME type: application/msword

This tells LATEX to add the Alternate ACM style file's structural commands to the suite of commands already available, and to begin working in the ACM document environment. emphasis with the \ttlit command, and you may of course enter any required special character appropriate LATEX command. Nevertheless, you will likely need occasionally to denote text as italicized (use the \textit command), as emboldened (use the \textbf command) or as

3 AUTHOR'S GUIDE FOR ELECTRONIC SUBMITTAL OF ACM

Size: 81.98KB MIME type: text/html

This tells LaTeX to add the ACM style file's structural commands to the suite of typographical commands already available, and to begin working in the ACM document environment. You can then have your article as having this general structure: the Title and Author Information (including title and author information along with any footnotes on title, subtitle and authors and not forgetting the "additional information" which appear at the end of the document); the Body of the Article (including text, ...)

4 AUTHOR'S GUIDE FOR ELECTRONIC SUBMITTAL OF ACM

Size: 148.99KB MIME type: application/msword

OVERVIEW OF THIS DOCUMENT This document explains how to use LATEX2e and BIBTEX class and style files provided by ACM to create a paper in ACM SIG Proceedings format. You should use only the structural commands in the acm_proc_article-sp.cls file, but you may use any typographical commands - such as accented or non-English characters and the math and graphics commands - from LATEX. This tells LATEX to add the ACM style file's structural commands

5 Computing Curricula 2001

Size: 4,798.19KB MIME type: application/pdf

Computing Curriculum Computer Engineering Curriculum Report Final Draft 2004 October Summary This report presents curriculum guidelines for undergraduate degree program in computer engineering. Computing Curriculum Computer Engineering Curriculum Report Final Draft Chapter 4 Overview of the Computer Engineering Body of Knowledge Developing any curriculum for undergraduate study in computer engineering should reflect the current needs of computer engineering.
